Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 138, Nos 1 & 2, 1994

ADP-RIBOSYLATION: METABOLIC EFFECTS AND REGULATORY FUNCTIONS
Joel Moss and Peter Zahradka, guest editors

Preface 1
Dedication 1

Part I: Historical perspective
T. Sugimura and M. Miwa: Poly(ADP-ribose): Historical perspective 5

Part II: Poly(ADP-ribosyl)ation
A. Structure and enzymology of poly(ADP-ribose) polymerase
G. de Murcia, V. Schreiber, M. Molinete, B. Saulier, O. Poch, M. Masson, C. Niedergang and J.M. de Murcia: Structure and function of poly(ADP-ribose) polymerase 15
K. Uchida and M. Miwa: Poly(ADP-ribose) polymerase: Structural conservation among different classes of animals and its implications 25
R. Alvarez-Gonzalez, G. Pacheco-Rodriguez and H. Mendoza-Alvarez: Enzymology of ADP-ribose polymer synthesis 33
S. Yoshida and C.M.G. Simbulan: Interaction of poly(ADP-ribose)polymerase with DNA polymerase α 39
B. Polymer regulation
J. Laguex, G.M. Shah, L. Ménard, H. Thomassin, C. Duchaine, C. Hengartner and G.G. Poirier: Poly(ADP-ribose) catabolism in mammalian cells 45
F.R. Althaus, L. Höfferer, H.E. Kleczkowska, M. Malanga, H. Naegeli, P.L. Panzeter and C.A. Realini: Histone shuttling by poly ADP-ribosylation 53
C. Cellular functions
S. Chatterjee and N.A. Berger: Growth-phase-dependent response to DNA damage in poly(ADP-ribose) polymerase deficient cell lines: basis for a new hypothesis describing the role of poly(ADP-ribose) polymerase in DNA replication and repair 61
S. Shall: The function of poly (ADP-ribosylation) in DNA breakage and rejoining 71
M.E. Smulson: Poly(ADP-ribose) polymerase gene on chromosome 1q: Early role in differentiation linked replication; gene on human chromosome 13q: Marker of carcinogenesis 77
A. Bürkle, M. Müller, I. Wolf and J.-H. Küpper: Poly(ADP-ribose) polymerase activity in intact or permeabilized leukocytes from mammalian species of different longevity 85
P. Zahradka and L. Yau: ADP-ribosylation and gene expression 91
D. Poly(ADP-ribose) polymerase gene regulation
S.L. Oei, H. Herzog, M. Hirsch-Kauffmann, R. Schneider, B. Auer and M. Schweiger: Transcriptional regulation and autoregulation of the human gene for ADP-ribosyltransferase 99

Part III: Mono(ADP-ribosylation)
A. ADP-ribosylation cycle
A. Zolkiewska, I.J. Okazaki and J. Moss: Vertebrate mono-ADP-ribosyltransferases 107
M. Tsuchiya and M. Shimoyama: Target protein for eucaryotic arginine-specific ADP-ribosyltransferase 113
T. Takada, I.J. Okazaki and J. Moss: ADP-ribosylarginine hydrolases 119
P.W. Ludden: Reversible ADP-ribosylation as a mechanism of enzyme regulation in procaryotes 123
B. Cellular mono-ADP-ribosylation
W.J. Iglewski: Cellular ADP-ribosylation of Elongation Factor 2 131
T. Maehama, N. Sekine, H. Nishina, K. Takahashi and T. Katada: Characterization of botulinum C3-catalyzed ADP-ribosylation of *rho* proteins and identification of mammalian C3-like ADP-ribosyltransferase 135
B.E. Ledford and G.H. Leno: ADP-rybosylation of the molecular chaperone GRP78/BiP 144

Part IV: Toxin mono-ADP-ribosylation
J. vanderSpek, L. Cosenza, T. Woodworth, J.C. Nichols and J.R. Murphy: Diphtheria toxin-related cytokine fusion proteins: Elongation factor 2 as a target for the threatment of neoplastic disease 151
C.F. Welsh, J. Moss and M. Vaughan: ADP-ribosylation factors: a family of -20-kDa guanine nucleotide-binding proteins that activate cholera toxin 157
K. Aktories: Clostridial ADP-ribosylating toxins: effects on ATP and GTP-binding proteins 167
I.J. Okazaki and J. Moss: Common structure of the catalytic sites of mammalian and bacterial toxin ADP-ribosyltransferases 177

Part V: Inhibitors and activators of ADP-ribosylation
M. Banasik and K. Ueda: Inhibitors and activators of ADP-ribosylation reactions 185

Part VI: Derivation of proteins with ADP-ribose, NAD and their analogues
L.J. McDonald and J. Moss: Nitric oxide and NAD-dependent protein modification 201
E.L. Jacobson, D. Cervantes-Laurean and M.K. Jacobson: Glycation of proteins by ADP-ribose 207
R. Alvarez-Gonzalez: DeoxyNAD and deoxyADP-ribosylation of proteins 213
L.J. McDonald and J. Moss: Enzymatic and nonenzymatic ADP-ribosylation of cysteine 221

Part VII: Cyclic ADP-ribose, NAD hydrologis and ADP-ribose synthesis
H.C. Lee: Cyclic ADP-ribose: A calcium mobilizing metabolite of NAD^+ 229
H. Kim, E.L. Jacobson and M.K. Jacobson: NAD glycohydrolases: A possible function in calcium homeostasis 237
N.J. Oppenheimer: NAD hydrolysis: Chemical and enzymatic mechanisms 245
